OTHER AGENCY INVOLVEMENT/IMPACT

General Services Department, Fleet Services coordinates the disposition of the equipment via a public auction.

Diesel equipment, such as the dump truck and water truck, are being phased out under California Air Resources Board (CARB) requirements for air emissions reductions. Public agencies are subject to the CARB criteria for retrofit or replacement.

FINANCIAL CONSIDERATIONS

These vehicles will be sold at public auction after being replaced. Proceeds from the sales will be deposited into the Public Works Internal Service Fund (ISF) Equipment Replacement Reserves.

RESULTS

Disposition of the surplus equipment generates revenue for the ISF equipment replacement reserves and enables Public Works to effectively manage the departments fleet of vehicles and equipment.
